

FATAHUL AHMAD DZIKRI

Software Developer

Medan, Sumatera Utara, Indonesia | fatahulmaddzikri@gmail.com

LinkedIn: linkedin.com/in/fatahul-ahmad-dzikri | GitHub: github.com/dzkrii | Portfolio: fatahul.my.id

PROFESSIONAL SUMMARY

Dedicated Software Developer and Informatics student at Universitas Battuta specializing in building high-performance web and mobile applications. Experienced in engineering full-stack software with clean architecture using Next.js, React, NestJS, Laravel, and Flutter. Proven track record in architecting and deploying institutional software including the official Academic Information System (SIKAD) and Main Profile Portal. Recognized with national awards in web design, mobile app development, and national research funding (PKM-PI Kemendikristek).

TECHNICAL SKILLS

- **Programming Languages:** TypeScript, JavaScript, PHP, Dart, HTML5, CSS3, SQL
- **Frontend Development:** React, Next.js, Tailwind CSS, TanStack Router
- **Backend Development:** NestJS, Laravel, Express.js, RESTful APIs
- **Mobile Development:** Flutter, Dart
- **Database:** PostgreSQL, MySQL

WORK EXPERIENCE

Software Developer | Universitas Battuta September 2024 – Present

- Engineer, develop, and maintain institutional software solutions to power academic and administrative operations at Universitas Battuta.
- Architected and developed the university Academic Information System (SIKAD) using React, TanStack Router, NestJS, PostgreSQL, and TypeScript following clean architecture.
- Built and launched the Official University Profile Website (battuta.ac.id) utilizing Next.js, React, TypeScript, and Tailwind CSS, improving load speed and SEO responsiveness.
- Implemented secure and modular REST APIs to facilitate efficient data exchange across campus academic services for students, faculty, and administrators.

Administration Staff | SMK Swasta Mustafa June 2023 – July 2024

- Managed school administrative governance, student database updates, operational document archiving, and daily correspondence.
- Supported daily school operations and drafted structured periodic administrative reports for executive management.
- Digitized manual record-keeping processes into centralized electronic files, enhancing data accuracy and information retrieval speed.

FEATURED PROJECTS

Universitas Battuta Academic Information System (SIKAD) | siakad.battuta.ac.id

Tech Stack: React, TanStack Router, NestJS, PostgreSQL, TypeScript

- Developed an integrated web application powering the academic ecosystem for course registration, grading, and student management.
- Implemented a modular backend architecture with NestJS and high-performance relational PostgreSQL database schemas.

Universitas Battuta Official Profile Website | battuta.ac.id

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Lucide Icons

- Designed and developed the university official public portal showcasing academic programs, news, and admissions.
- Optimized page rendering performance, UI/UX accessibility, and SEO structure using Next.js Server-Side Rendering.

HONORS & ACHIEVEMENTS

- **2nd Place Web Design Competition COMFTIK 2025** — Universitas Satya Terra Bhinneka (2025)
- **3rd Place Mobile Apps Competition CORISINDO** — Universitas Teknologi Bandung (2024)
- **PKM-PI Funding Recipient & 38th PIMNAS Participant 2025** — Kemendiktisaintek Republik Indonesia (2025)

EDUCATION

Bachelor of Science in Computer Science (Informatics) | Universitas Battuta 2023 – Present

- Focus Areas: Software Engineering, Web & Mobile Architecture, Database Systems, and Digital Product Development.

CERTIFICATIONS & COMPETENCIES

- **Alibaba Cloud Certified Developer** — Alibaba Cloud Academy (2024)
- **Cloud Practitioner Essentials (AWS Cloud Basics)** — Dicoding (August 2024)
